MEMORANDUM FOR: Chief, Arms Control Intelligence Staff

FROM: Director of Central Intelligence

SUBJECT: SALT II

1. Sometime next week I would like to have a draft of a letter to the President recrystallizing our thoughts on SALT II. Much of it would come from the talking points I sent to you yesterday. I would want to specifically plug the non-destruction of the submarines so that they are available for possible contribution to SDI or other uses, and also the use of the assets we have, namely, the MINUTEMAN III, to make a significant but not expensive enhancement of our deterrent capability.

2. Also, I would like to incorporate some detail on Soviet ability and likelihood to go beyond SALT levels along the lines that the two of you suggested at my NSC Pre-brief on Tuesday.
